

Dear Readers,
Komondor friends,

In recent months repeatedly intensified activities of the Hungarian Komondor Association (MKE) to "state official breeder organization" in the hope of obtaining rights against the HKK with.

In the last period of several forums MKE attacking our club, they try to force the will of rank, which requirements, system may not be acceptable by us. It makes all dressed and sounding very "scientific" guise.

As manifestations of MKE by the published methods, methods are partly and completely not compatible with HKK, MEOESz FCI and XXI. century dog keeping requirements, ethics, rules, HKK management decided that it would not cooperate with the Hungarian Komondor Association.

The HKK particularly dissociates itself from crossing the blood-drop suggested by the application of MKE and breeding dogs without a pedigree without all the features of the condition.

The HKK will continue its work in order to maintain and expand sheepdog stock through HKK dog breeders and keepers work, observing the relevant exhibition and breeding, registration rules.

Our goal is to preserve the Komondor breed for generations after us.

HKK management
